PREFATORY NOTE

The 1912 edition of the Catalogue of the Officers and Graduates of Columbia University is the fifteenth which has been published. The first was issued in 1774, and subsequent editions appeared in 1815, 1826, 1836, 1844, 1865, 1868, 1871, 1876, 1882, 1888, 1894, 1900, and 1906. Since the publication of the last edition, the Committee has communicated with all graduates of the University whose addresses could be ascertained, and every effort has been made to secure complete records of changes of address and of deaths of alumni. Much information has been obtained through the *Alumni News*, and the office of the Alumni Council has been of the greatest assistance.

The large increase in the number of graduates of the University has expanded the Catalogue to such proportions that it has been found necessary to condense or eliminate personal records, but much of this information can be obtained by reference to earlier editions. Particular care has been given to the locality index, in order that it may serve as a directory for non-resident alumni.

A catalogue of this character cannot be strictly up-to-date. Though all changes have been noted to the time of going to press, doubtless mistakes have been made, and any one discovering an error will render a favor by calling attention to the fact in a note addressed to the Committee on the General Catalogue at the University.

The figures in parentheses following the name of a Governor or Trustee indicate the date of his graduation from King's or Columbia College.

A star (*) after a name denotes that the individual is deceased. In every case in which the year of the decease is known, it is indicated at the right, together with the age at time of death.

⊗ before a name indicates that the accompanying address is either old or indirectly supplied.

In the case of an alumnus who holds more than one degree from Columbia, the full record and address are given only under the school from which he was first graduated, the name and first degree only being given in the records of subsequent degrees. Exception has been taken to this rule in the records

of the school of Political Science and in the records of the Masters of Arts and Doctors of Philosophy. However, the school and class under which the full record may be found has been indicated in each case.

An effort has been made to list the graduates in Arts (College and Barnard) and the schools of Engineering according to class affiliation, the year in which the degree was conferred being inserted in brackets immediately following the graduate's name.

In the case of married women graduates, the name under which the degree was received is given first, with the married name immediately following in parenthesis. In the records of subsequent degrees, in the General Index, and in the Locality Index, the graduates are listed under their married name, with the maiden name immediately preceding. For example: Class List insertion—May Jane Smith (Mrs. John M. Jones). Subsequent degree insertion—May J. Smith Jones (Mrs.), A.B. 1900.

Wherever no word (*Ave., Pl., Rd.,* etc.) appears after a name or number in the address, *Street* is understood. Wherever no city is given after the street address, *New York City* is understood.

OFFICERS OF INSTRUCTION AND ADMINISTRATION

The following list includes in alphabetical order the names of all persons appointed by the Trustees since the foundation of King's College in 1754, with the exception of those appointed only for the Summer Session or for Extension Teaching. The record includes only those appointments in the College of Physicians and Surgeons, Barnard College, Teachers College, and the College of Pharmacy in effect during the period of union with Columbia University. Furthermore, as the junior officers in Teachers College and the College of Pharmacy and the clinical assistants at the College of Physicians and Surgeons are not appointed by the Trustees of Columbia College, their names and records do not appear in the list. In the case of those officers who hold degrees from this institution, the first degree only will be indicated, further information being available later in the volume under the course and year to which reference is thus made. In the case of officers who do not hold Columbia degrees, the academic records are given here in so far as possible. In many cases, however, the Committee has been unable to obtain this information, and it is requested that any further details which may be known to readers of the volume be forwarded to the Committee.

Those who are interested in the historical development of the several professorial chairs and departments of instruction should consult also the General Catalogue, editions of 1900 and 1906, in which there are separate historical records for each grade of instruction and for each professorship. Considerations of space have, unfortunately, rendered it impossible to reproduce the record in the present volume.

The abbreviations used are as follows:

Asst., Assistant
Assoc., Associate
Lect., Lecturer
Instr., Instructor
Demonstr., Demonstrator
Adj., Adjunct
Res., Resigned
Ret., Retired (term expired)
Emer., Emeritus

The present system of academic grades was adopted in December, 1890. Previously the terms Assistant, Tutor, Lecturer, and Instructor, were used more or less interchangeably.

On April 6, 1776, the College buildings were occupied for military purposes. The College did not fully resume its functions until the close of the war, and no degrees were conferred until 1786. The following candidates had been admitted, but did not complete their course on account of the disturbed state of public affairs.
